The volume stated is for factory made colours. Note that local variants in pack size and filled volumes can vary due to local regulations.

Application data

The product can be applied by

Soft cloth, Polish paper: Recommended.

Product mixing ratio (by volume)

Single pack

Cleaning of painting tools

Water

Directions for use

Surface preparation

Surfaces with grease, oil or other contamination, wash with recommended Jotun Yachting detergent.

Pretreatment

Shake the can before use. Apply the product on the area to be treated. Polish to the desired effect. Complete with a clean microfibre cloth or polish paper. For machine polishing, recommended rotating speed is approximately 1000 rpm.

Remarks

Do not apply the product on hot surfaces or in direct sunlight. Avoid contact with rubber and plastic details.

Storage

Do not store below 0°C or above 35°C. The product must be stored in accordance with national regulations. Keep the containers in a dry, cool, well ventilated space and away from sources of heat and ignition. Containers must be kept tightly closed. Handle with care.

Shelf life at 23 °C

Chrome Polish 36 month(s)

In some markets commercial shelf life can be dictated shorter by local legislation. The above is minimum shelf life, thereafter the paint quality is subject to re-inspection.

Health and safety

Please observe the environmental and precautionary notices displayed on the container.

A Material Safety Data Sheet for the product has been issued.

Detailed information regarding health- and safety risks and precautions for the use of this product is specified in the product's Safety Data Sheet.

First-aid measures, refer to section 4.

Handling and storage, refer to section 7.

Transport information, refer to section 14.

Regulatory information, refer to section 15.
